How to Bulk Edit WooCommerce Orders Using Google Sheets

FlexOrder - Order Sync with Google Sheets for WooCommerce · https://wppool.dev/docs/bulk-edit-woocommerce-orders-using-google-sheets/

To **Bulk Edit** WooCommerce orders from **Google Sheets**, follow these steps.

First, make sure you've installed and set up Order Sync with Google Sheets for the WooCommerce plugin. You can check our installation guide.

Go to the admin dashboard and click on "Orders" under WooCommerce to check the order information.

After that, you can go to the connected Google Sheets to update WooCommerce orders. You can change your order status in a **bulk from here .**

It will automatically update in your **WooCommerce order dashboard.**
