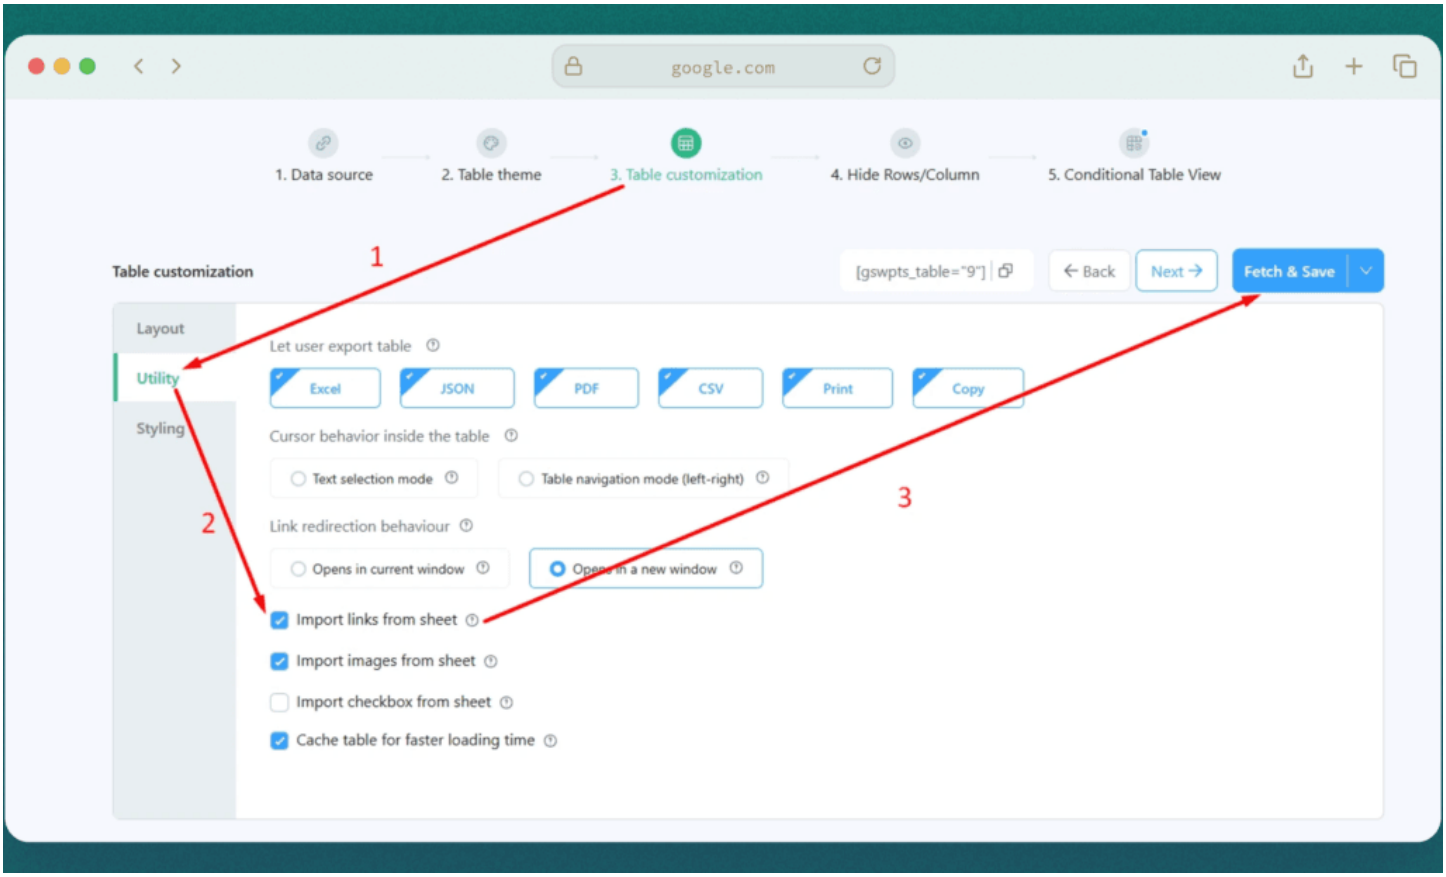
How to add buttons in WordPress tables

FlexTable - Sheets to WP Table Live Sync · https://wppool.dev/docs/how-to-add-buttons-in-wordpress-tables/

Give your WordPress tables a polished look by replacing boring links with button-style for better accessibility and design.

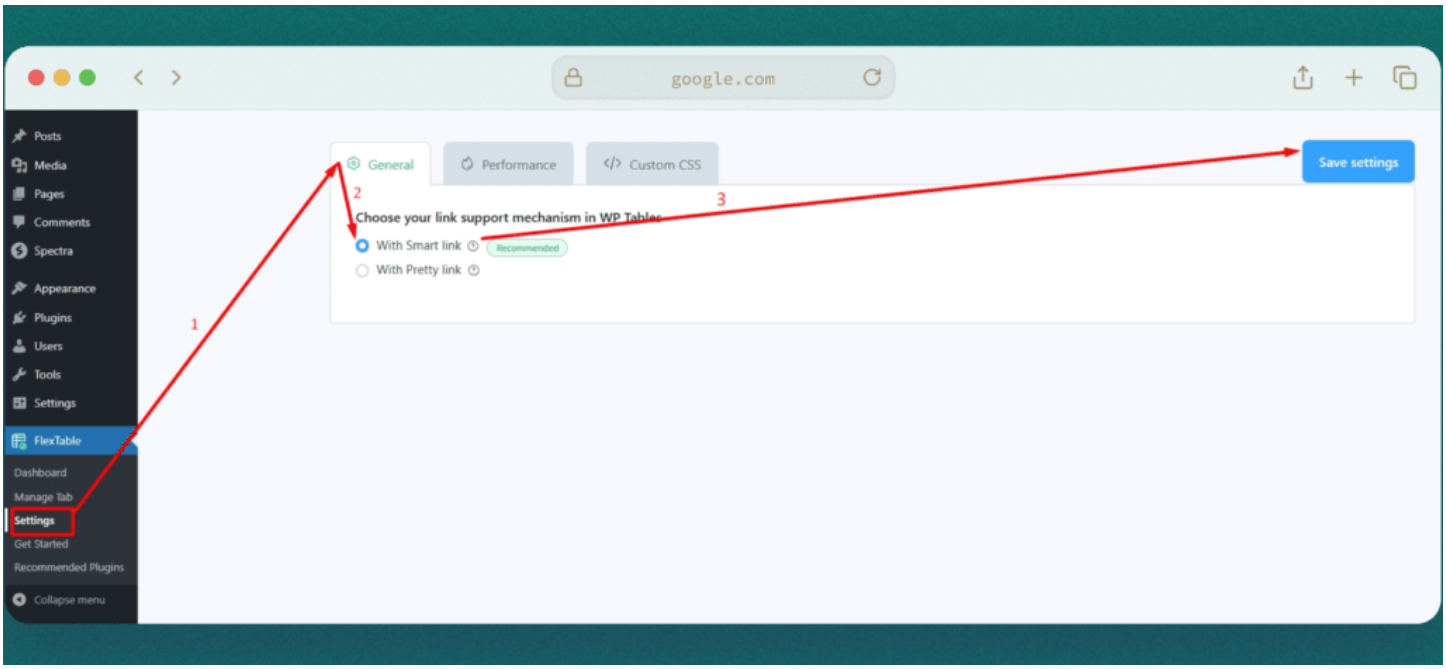
Step 1: Enabling the Link Import Feature

1. Go to the **"Table Customization"** tab from the **Dashboard**.
2. Select the **"Utility"** tab.
3. Check the box labeled **"Import links from sheet"** to enable the feature.
4. This feature retrieves all embedded data from the **"Links"** column.
5. Click **"Fetch & Save"** to update the table with the imported links.



Troubleshooting: If Links Are Not Imported

- Navigate to the **"Settings"** page.
- Under the **"General"** tab, locate **"Activate the Link Support Mechanism"**.
- Set it to **"With Smart Link"** and click **"Save"**.
- Refresh the table to import the links successfully.



Step 2: Styling Links as Buttons

To improve the table's visual appeal, you can convert the links into buttons.

Identifying the Link Class

1. Open the table page.
2. Press CTRL + Shift + I or right-click and select **"Inspect"** to open the developer tools.
3. Locate the **Elements** panel and identify the class for the link column data.
4. The class should be **.cell_div a.swptls-table-link.**

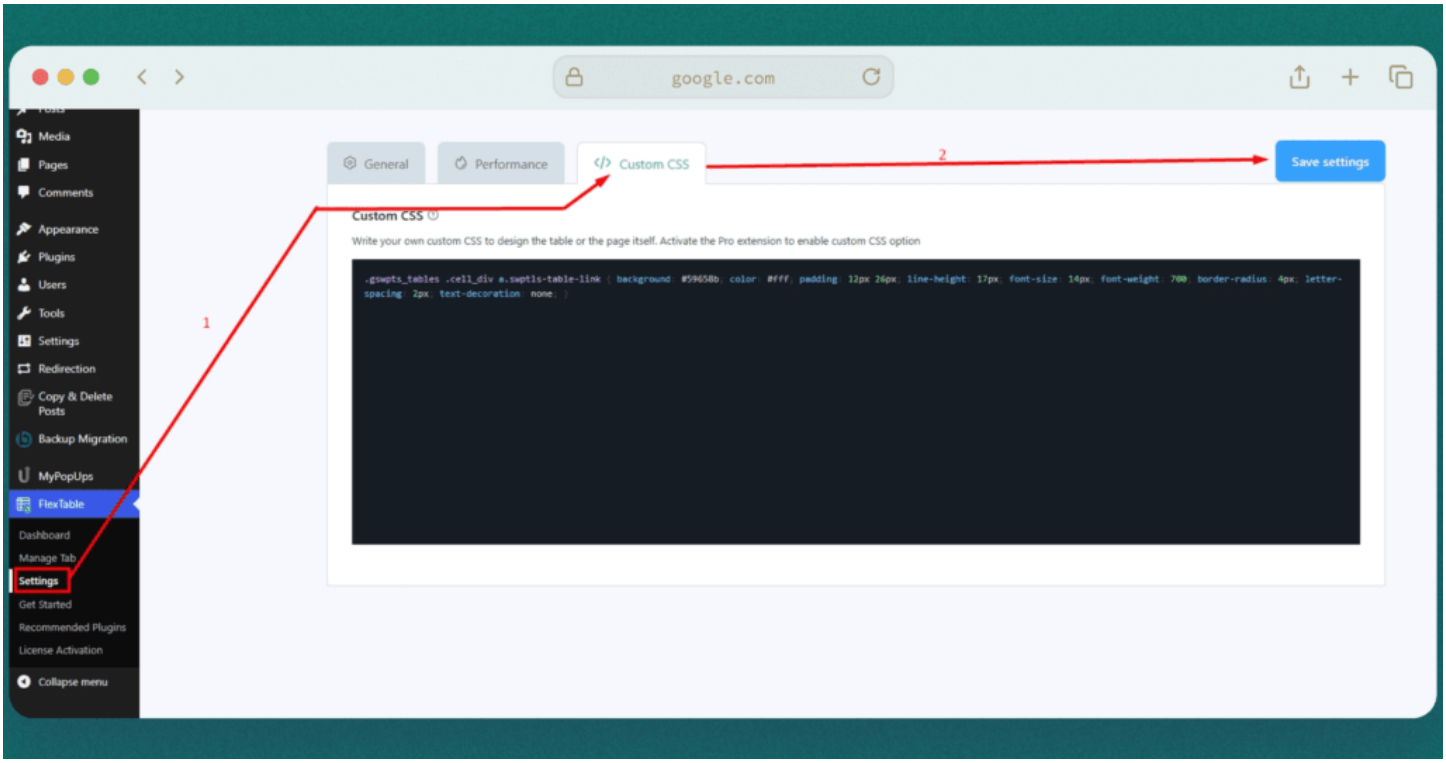
Step 3: Saving Custom Styles

1. Navigate to **Settings > Custom CSS** tab.
2. Add custom CSS targeting your specific table ID or If you want the button style applied to all tables, remove the table ID.
3. Click **"Save Settings"**.



Refresh your page to view the changes.

Your table now features **beautifully styled button links**!
