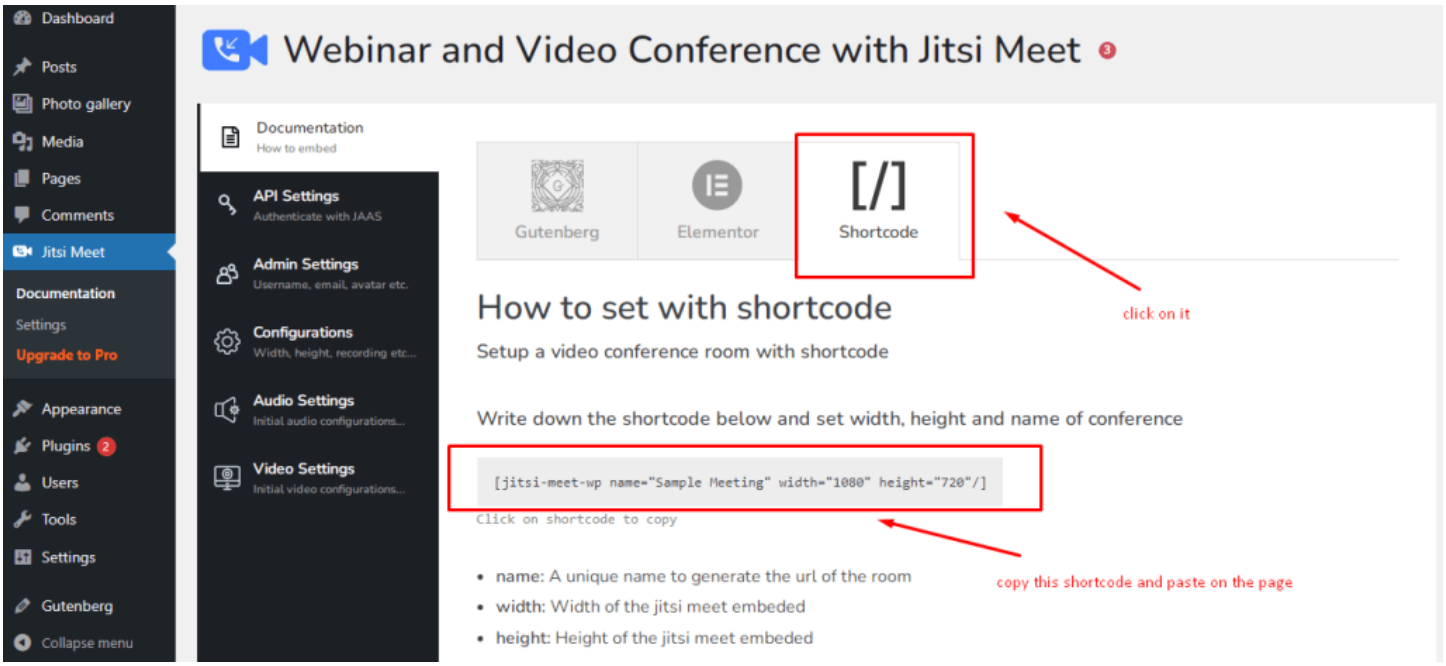
How to use shortcode to display meeting with Jitsi Meet

FlexMeeting - Webinar and Video Conference with Jitsi Meet · https://wppool.dev/docs/how-to-use-shortcode-to-display-meeting-with-jitsi-meet/

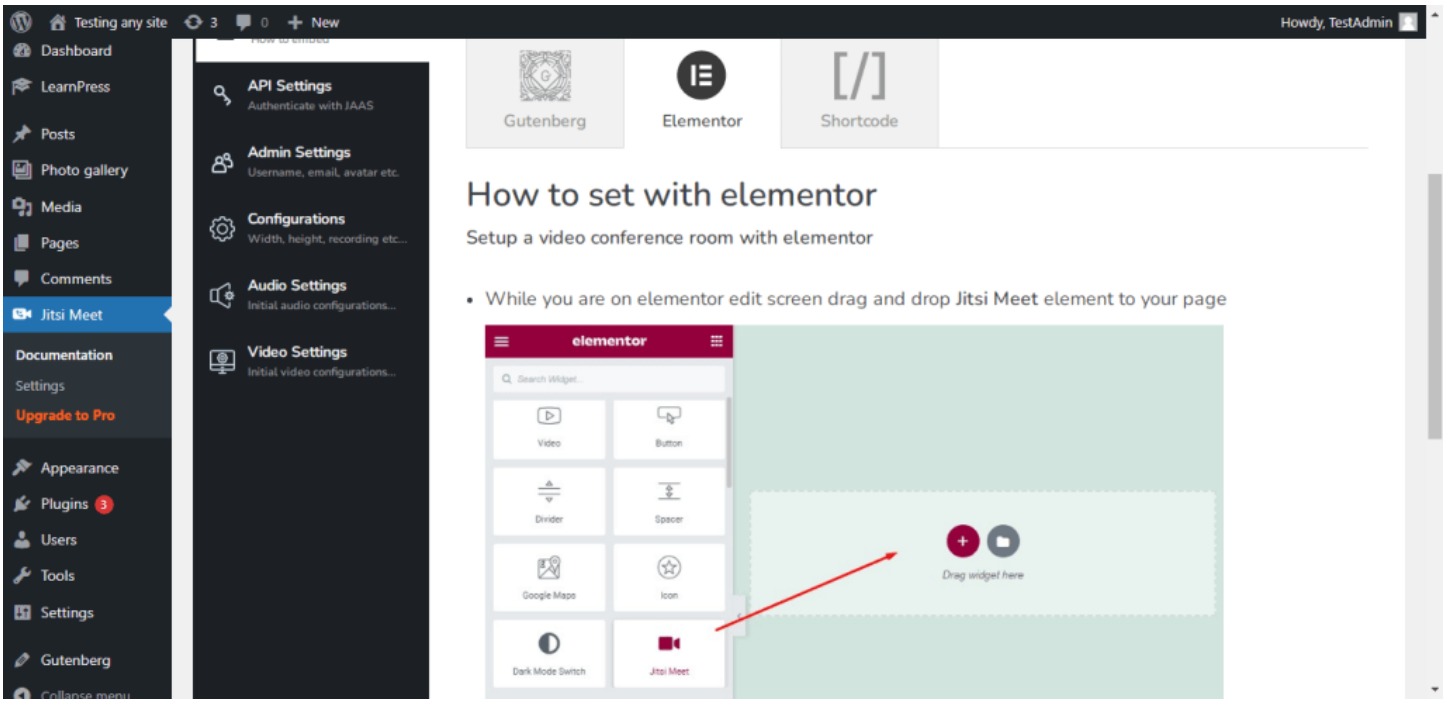
Go to the dashboard click on the plugin ‘Jitsi Meet’ > documentation and click on the shortcode tab and see below the shortcode. So just copy the shortcode from here like



Then click on the ‘add new’ page or post then click on the ‘add block’ search shortcode select and paste the shortcode. ‘Publish’ and go run.

We can also use shortcodes or without shortcodes with Elementor and Gutenberg. Example blow

For Elementor like



And for Gutenberg like
