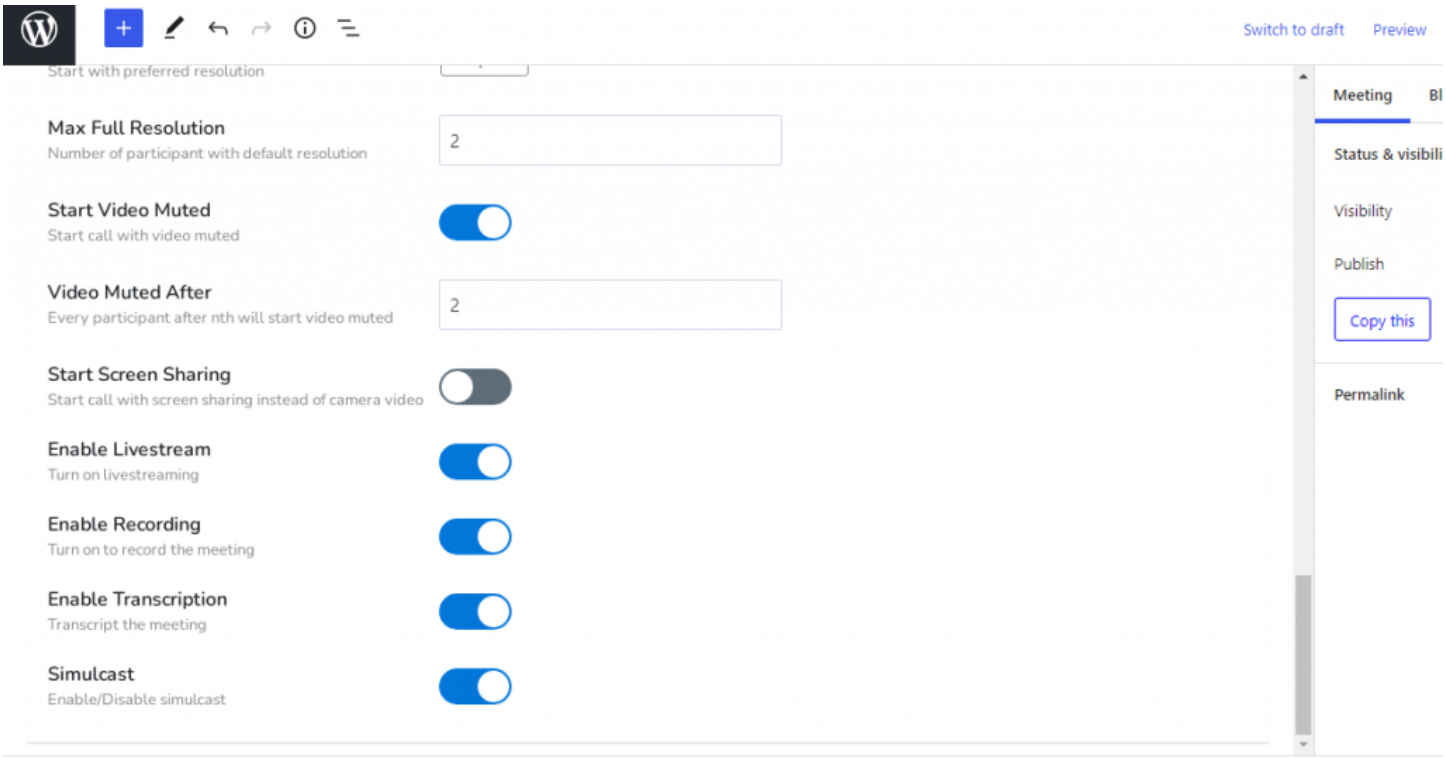
How to do live streaming in Jitsi Meet

FlexMeeting - Webinar and Video Conference with Jitsi Meet · https://wppool.dev/docs/how-to-do-live-streaming-in-jitsi-meet/

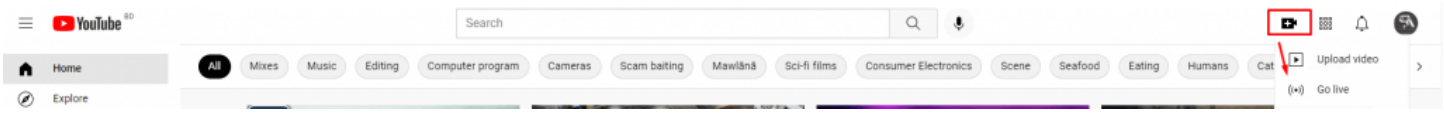
Go to your dashboard and click on the menu item ‘Jitsi Meet Pro’> Meetings then create ‘add new’ meeting and open the page and go to the meeting setting and turn on the switch like

- “Enable Livestream” - (Mandatory for streaming)
- “Enable Recording” - (Optional)
- “Enable Transcription” - (Optional)
- “Simulcast” here - (Optional)

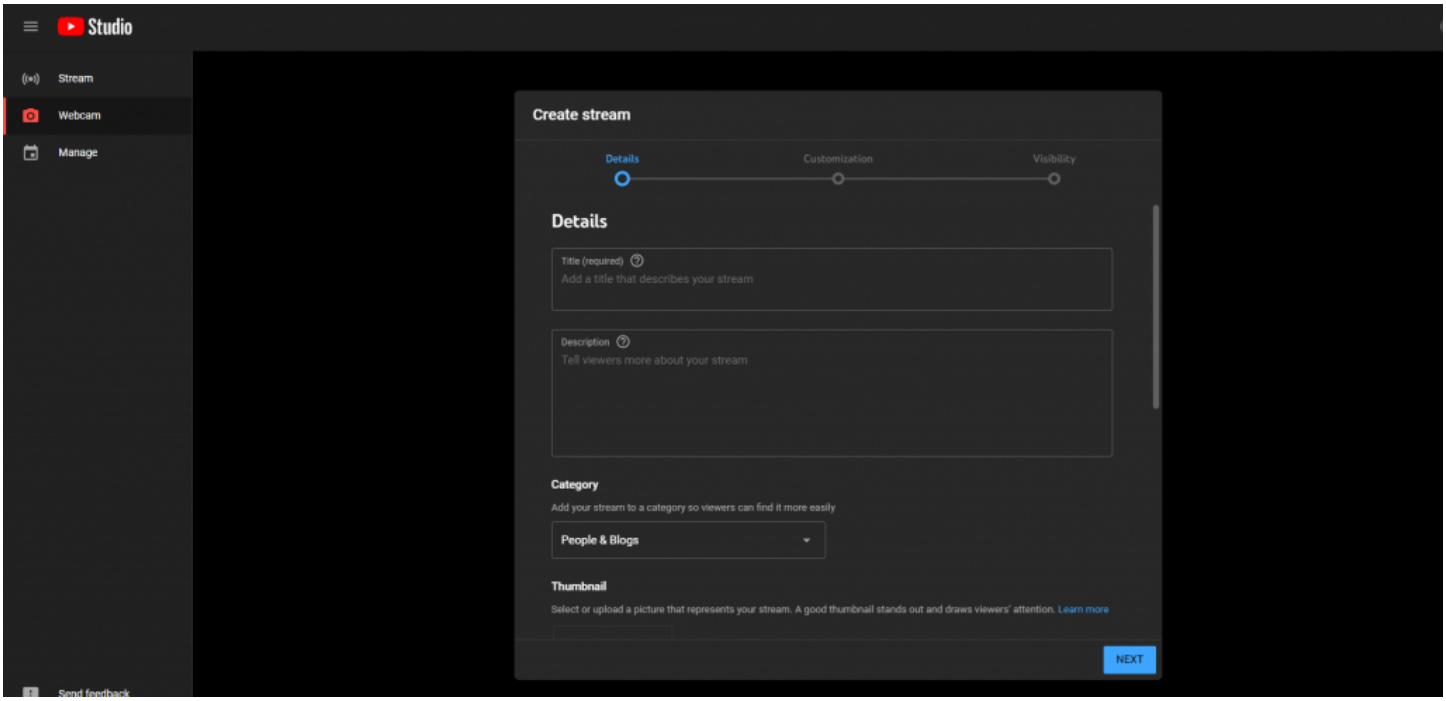


Click on the ‘Publish’ button and view the meeting page.

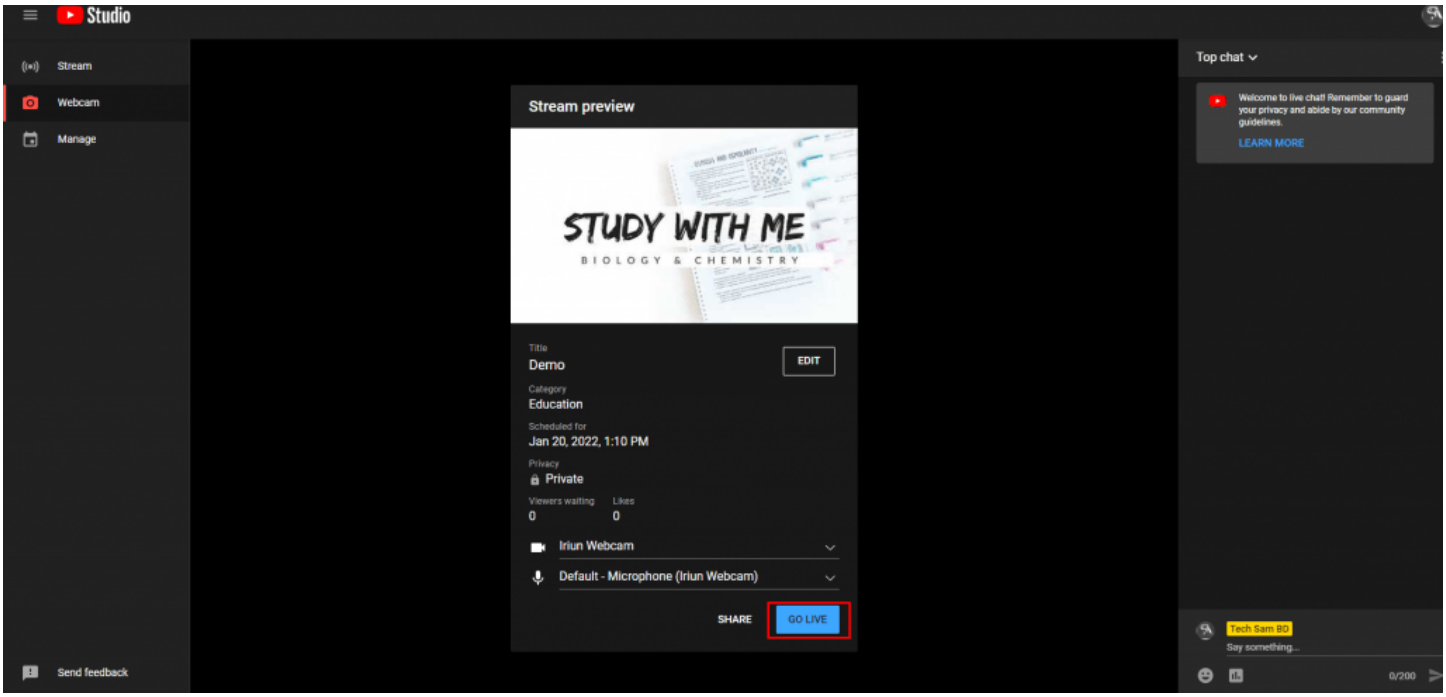
Then go to the page where you want to play a live stream like YouTube. Go to your YouTube account and create & set up a live streaming setting and go to live. like

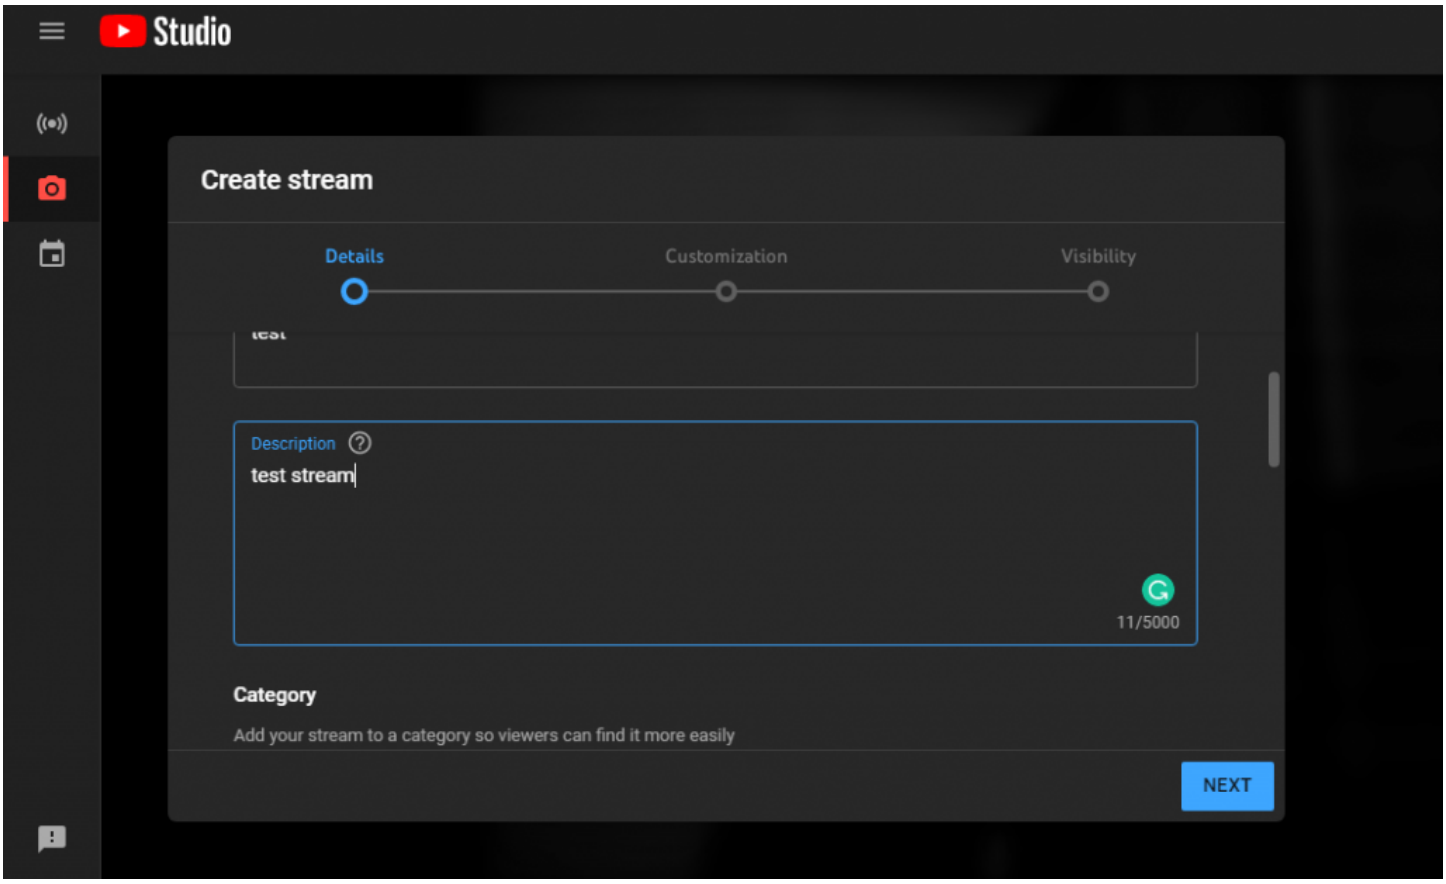


Then set stream information.



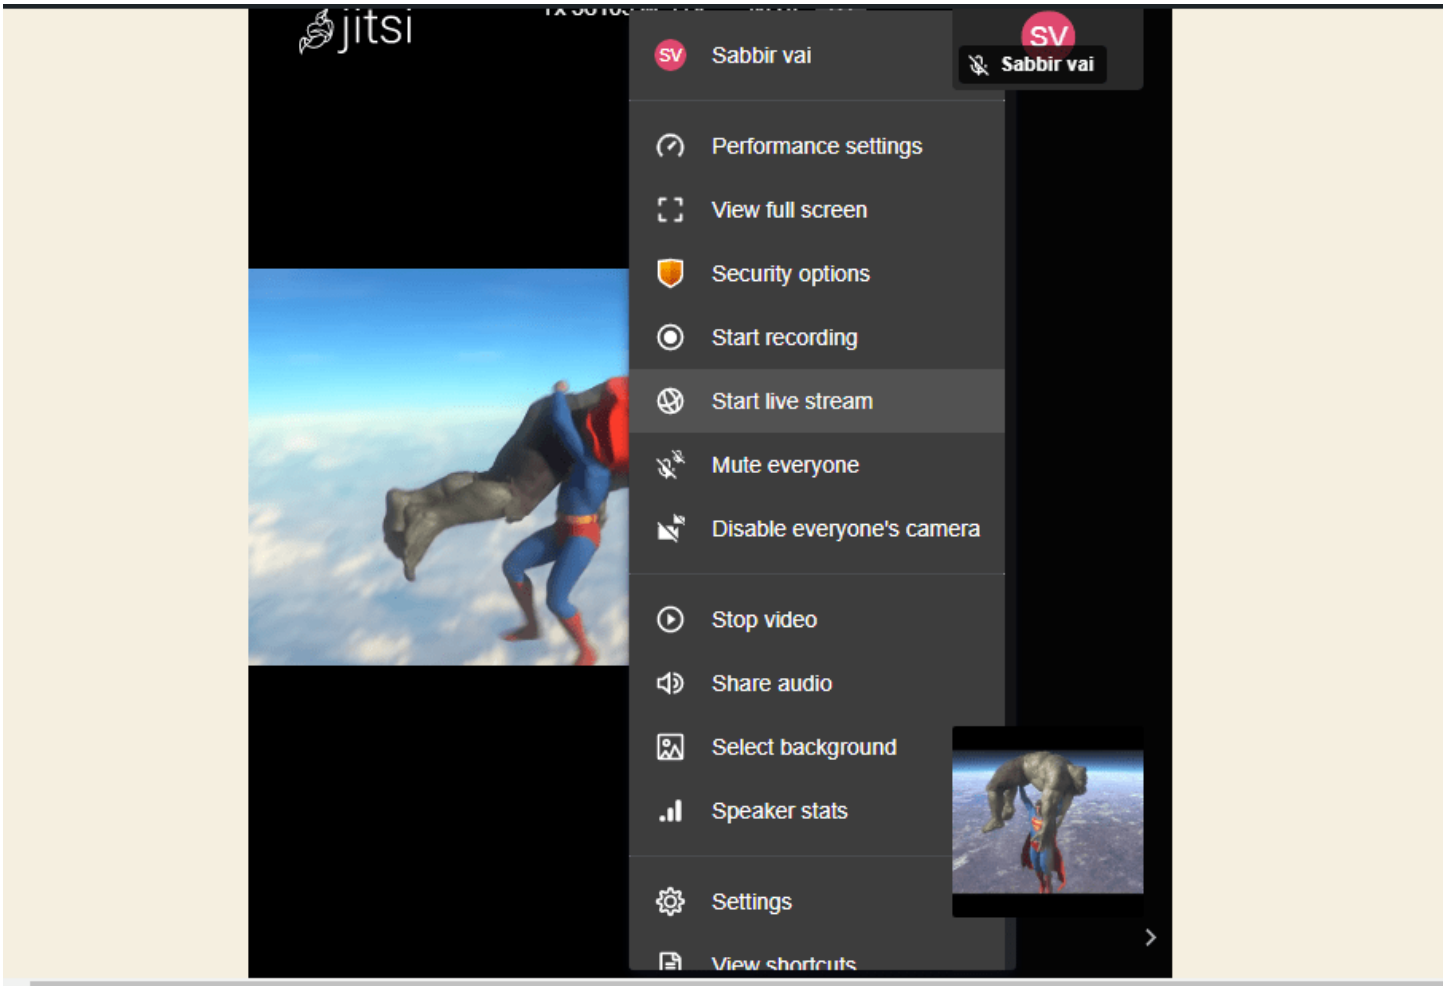
Then go live





Then back to our own streaming panel and from options

And the go-to again option and select ‘Start live stream’ choose a steam option and put the key and hit the ‘start live stream. And watch the steaming from YouTube. That’s it. Like



Choose a live steaming by title. Like
