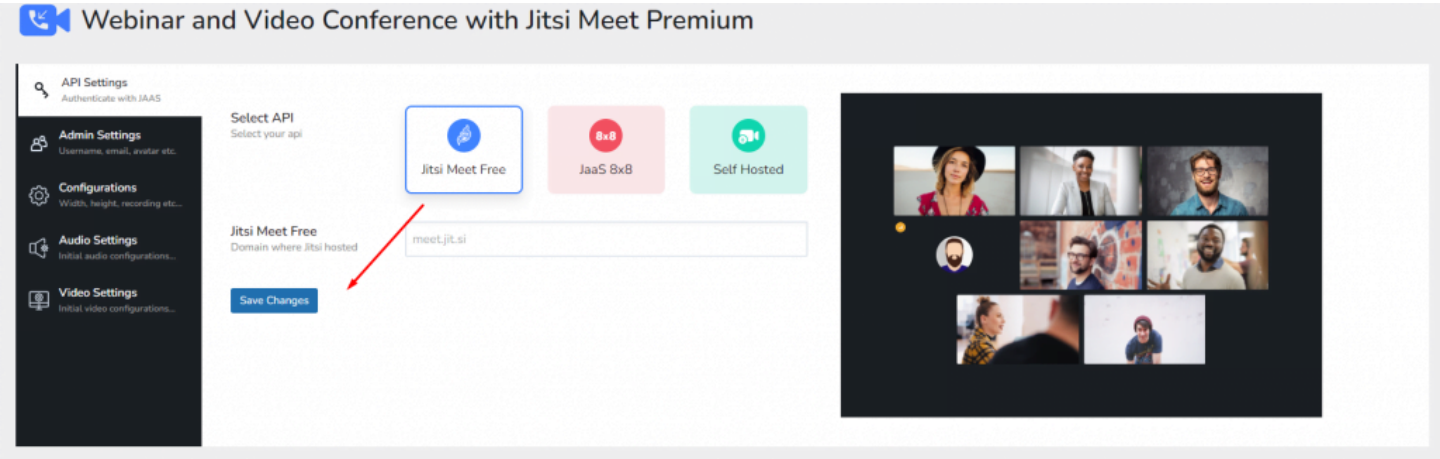
How to get the app ID, API key, and private key in Jitsi Meet

FlexMeeting - Webinar and Video Conference with Jitsi Meet · https://wppool.dev/docs/how-to-get-the-app-id-api-key-and-private-key-in-jitsi-meet/

Go to your dashboard and click on the menu item ‘Jitsi Meet Pro’> API setting then hit on the

- JaaS 8x8
  - Click on the JAAS Admin below of the APP ID like

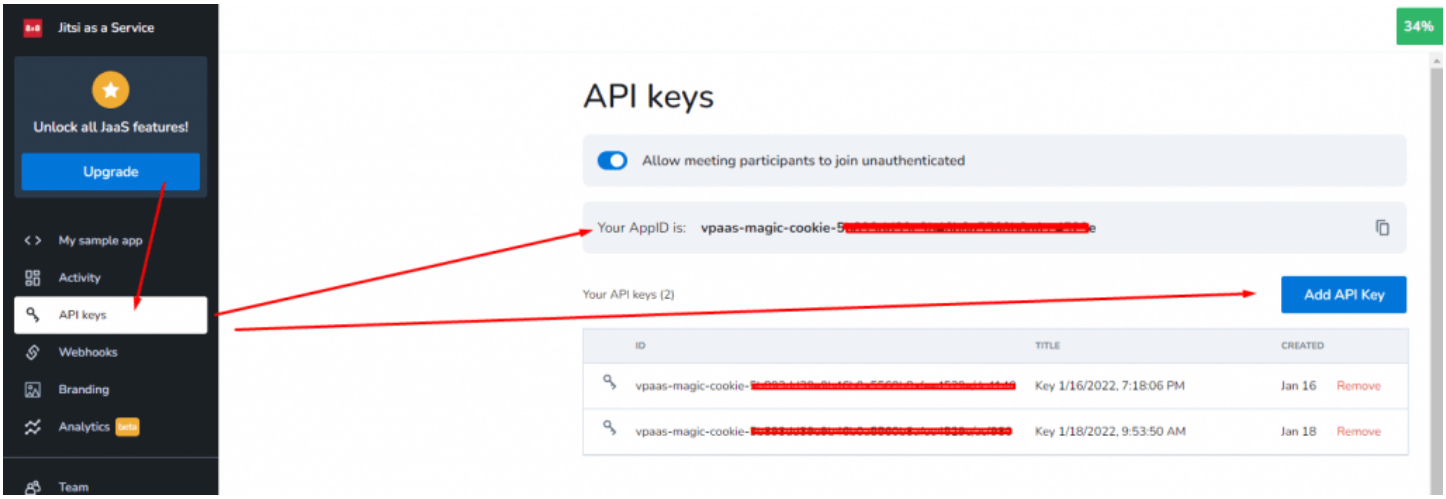


When users click JAAS Admin they will redirect to https://jaas.8x8.vc/

Either they can create a free account or may purchase their preferred package according to their need.

For free they just need to simply log in with a Google account like Gmail.

Then on the API key section, they will find APP Id.



To generate App keys they will need to hit Add API Keys > Generate API Key pair > RSA private keys > hit on Download.

This is how they can collect API keys and private keys.
