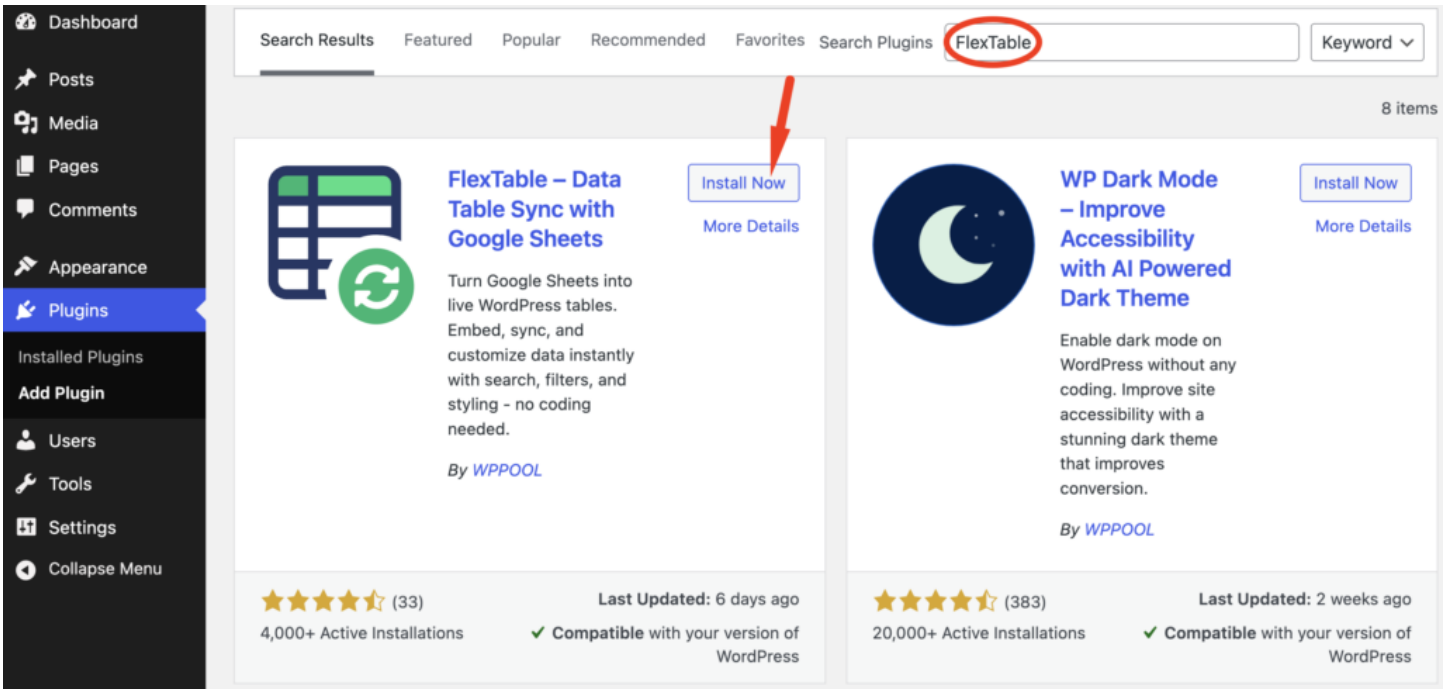
How to install and activate FlexTable Free & Pro version plugin.

FlexTable - Sheets to WP Table Live Sync · https://wppool.dev/docs/how-to-install-and-use-google-sheets-to-wp-table-live-sync/

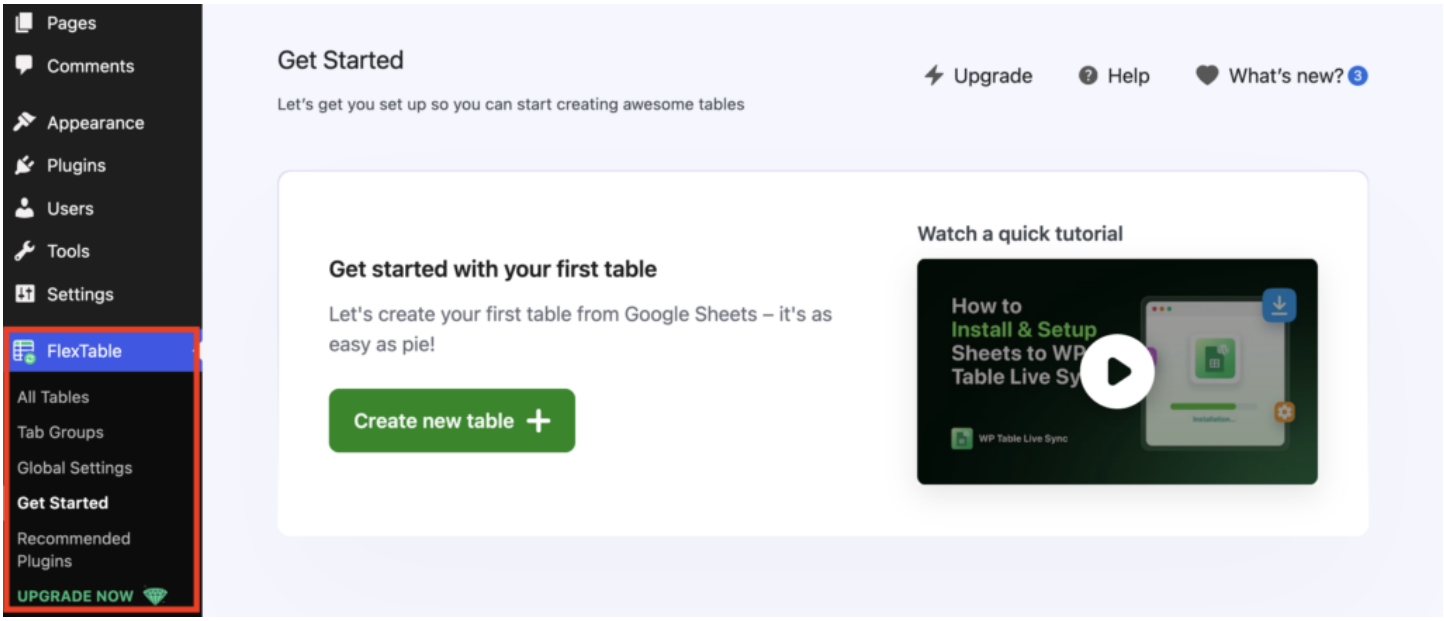
Installing FlexTable (Free Version)

Method 1: Install from WordPress Dashboard

- Log in to your WordPress Admin Dashboard
- Navigate to **Plugins → Add New**
- Search for **FlexTable**
- Click **Install Now**
- After installation, click **Activate**

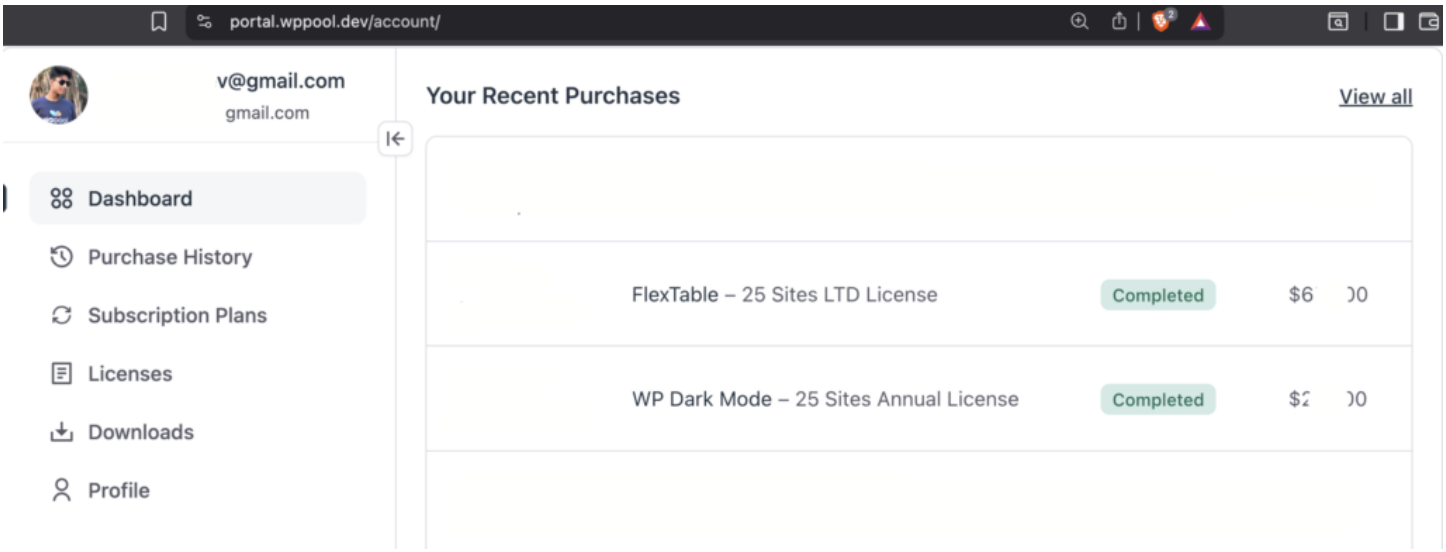


Once activated, FlexTable will appear in your WordPress dashboard menu.



Activating the FlexTable Pro Version

To activate **FlexTable Pro**, first purchase a suitable plan from our **website** and log in to your **WPPOOL account** using your credentials.

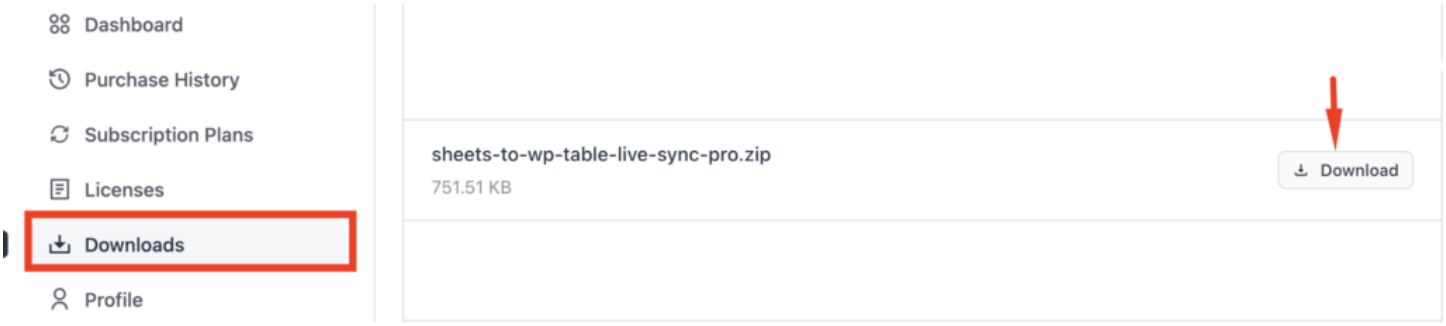


Step-by-Step Activation Process

Get the Pro Plugin & License Key

- After purchase, check your **purchase confirmation email** for the download link and license key, **or**
- Log in to your **WPPOOL account** and go to **Licenses** or **Downloads**.

- Download the **FlexTable Pro ZIP file** and copy the **license**.

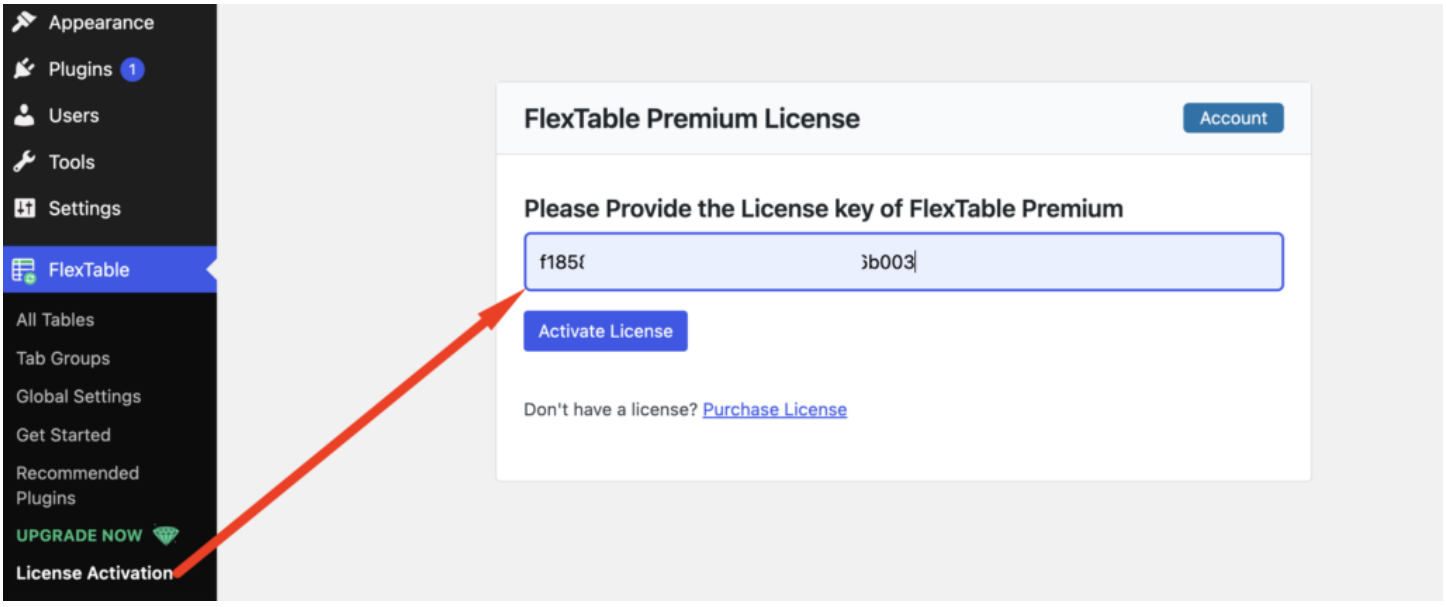


Install the Pro Version

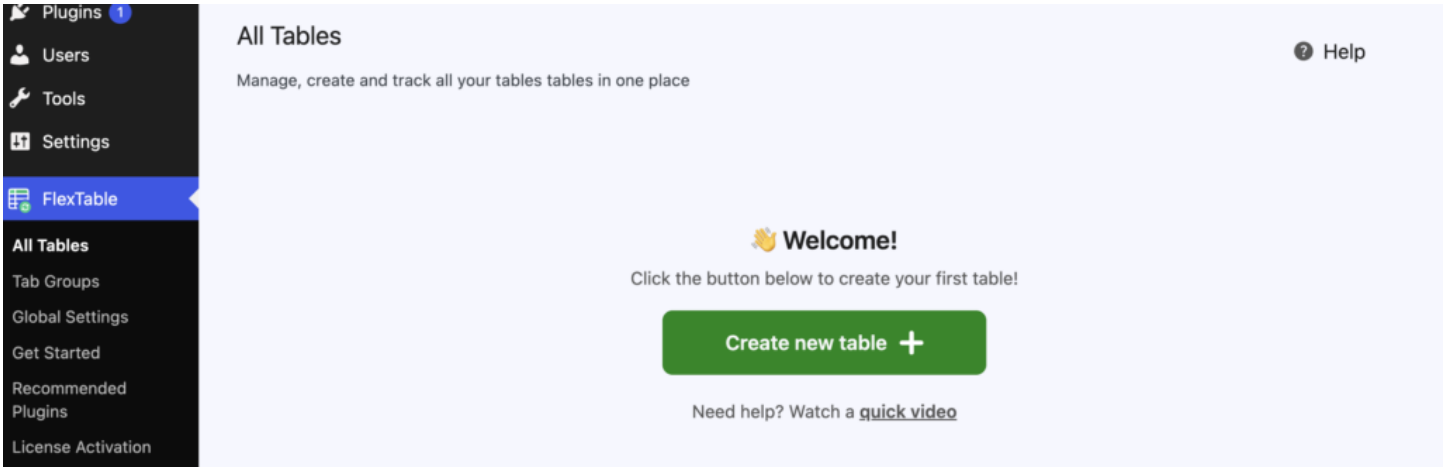
- Go to your WordPress Admin Dashboard.
- Navigate to **Plugins → Add New → Upload Plugin**.
- Upload the **FlexTable Pro ZIP file** and click **Install Now**.
- After installation, click **Activate**.

Activate the License

- Once the plugin is activated, you will see the option to activate the Pro version.
- Paste the copied **license key** into the license field.
- Click **Activate License**.



Once the license is successfully activated, all **FlexTable Pro features** will be unlocked and ready to use.



Enjoy using FlexTable Pro!
