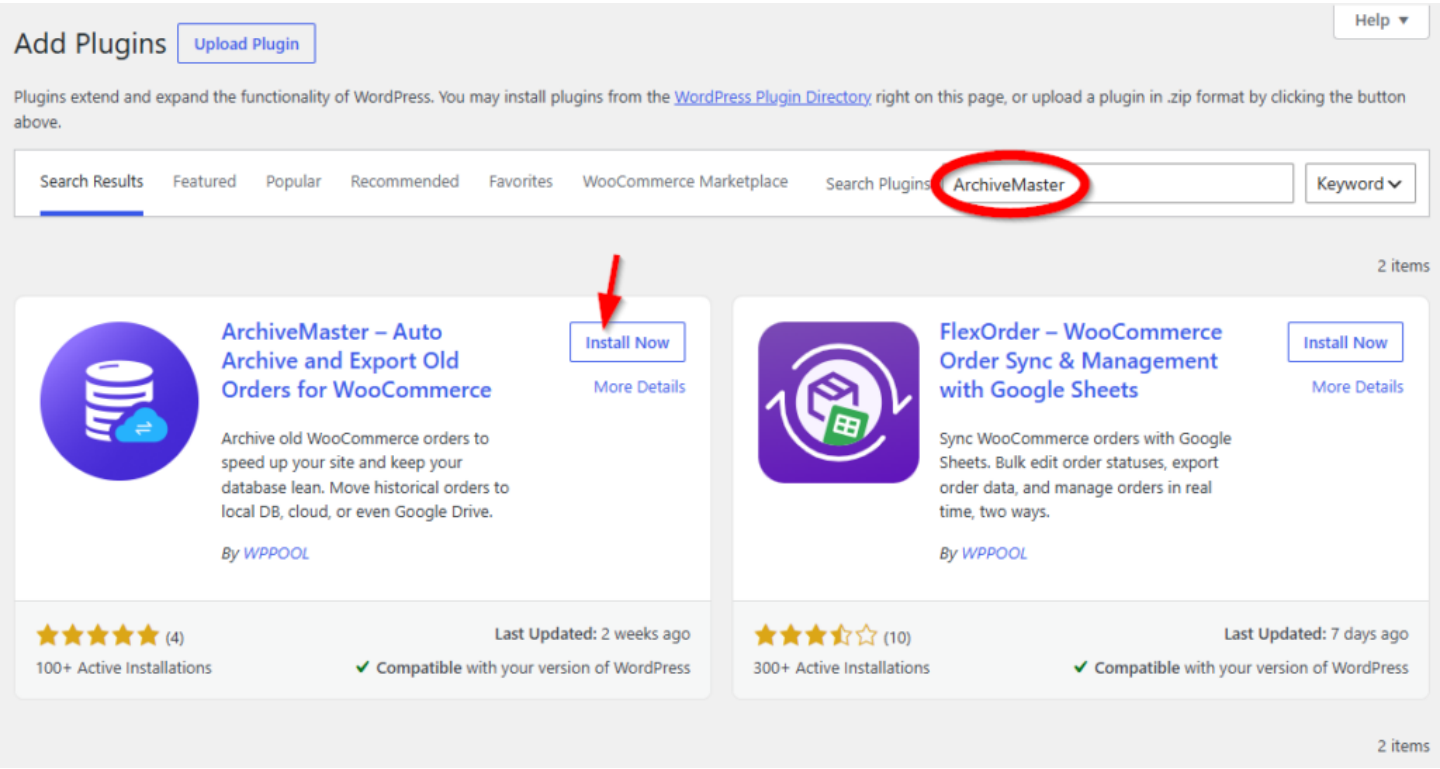
How to Install & Use ArchiveMaster

ArchiveMaster · https://wppool.dev/docs/how-to-install-use-archivemaster/

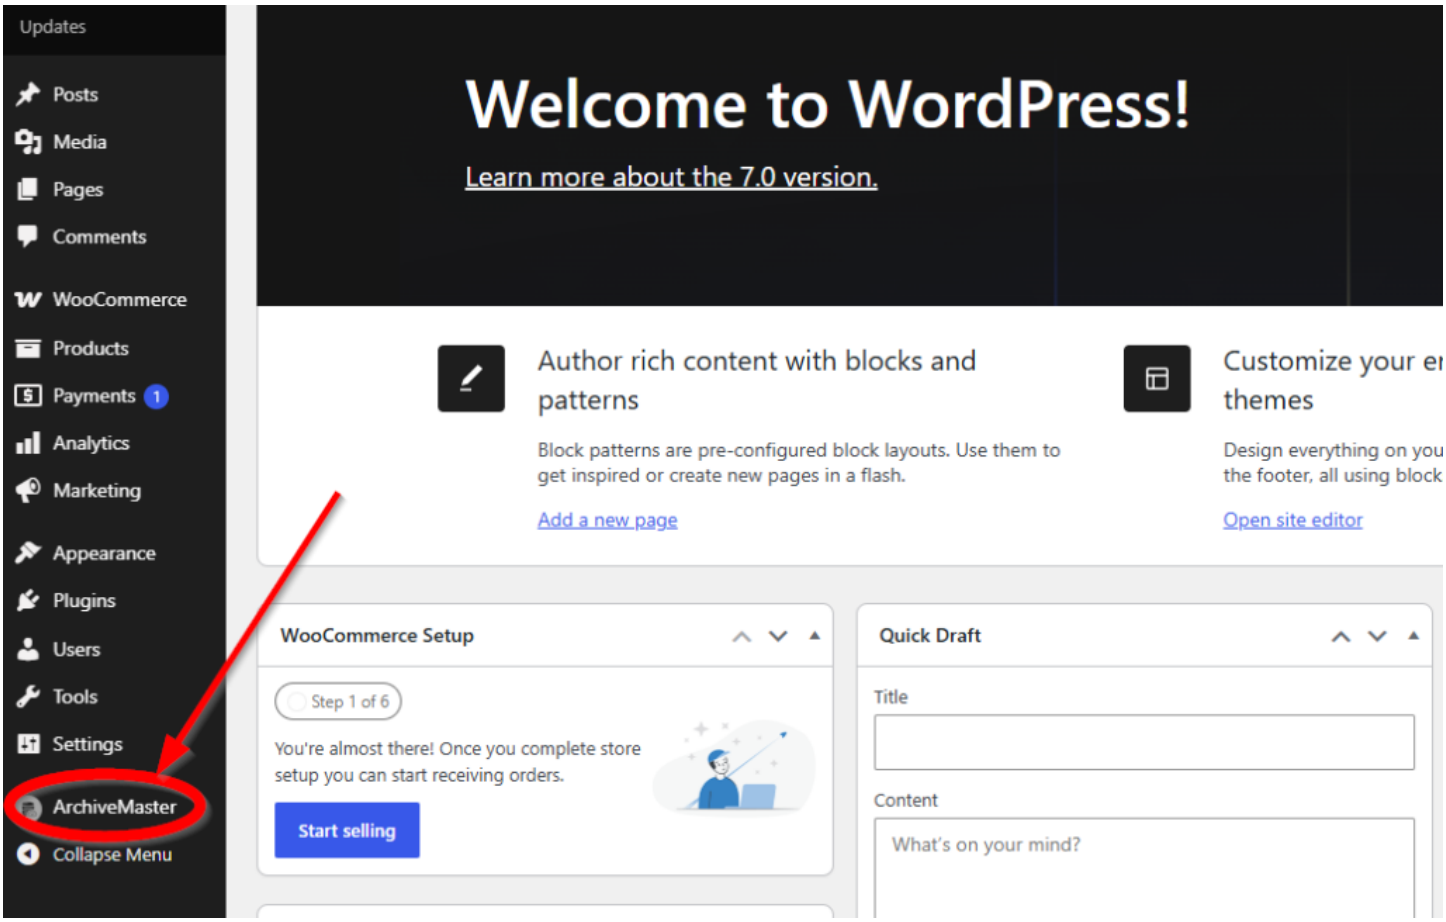
Method 1: Install from WordPress Dashboard

- Log in to your WordPress Admin Dashboard
- Navigate to **Plugins → Add New**
- Search for **ArchiveMaster**
- Click **Install Now**
- After installation, click **Activate**

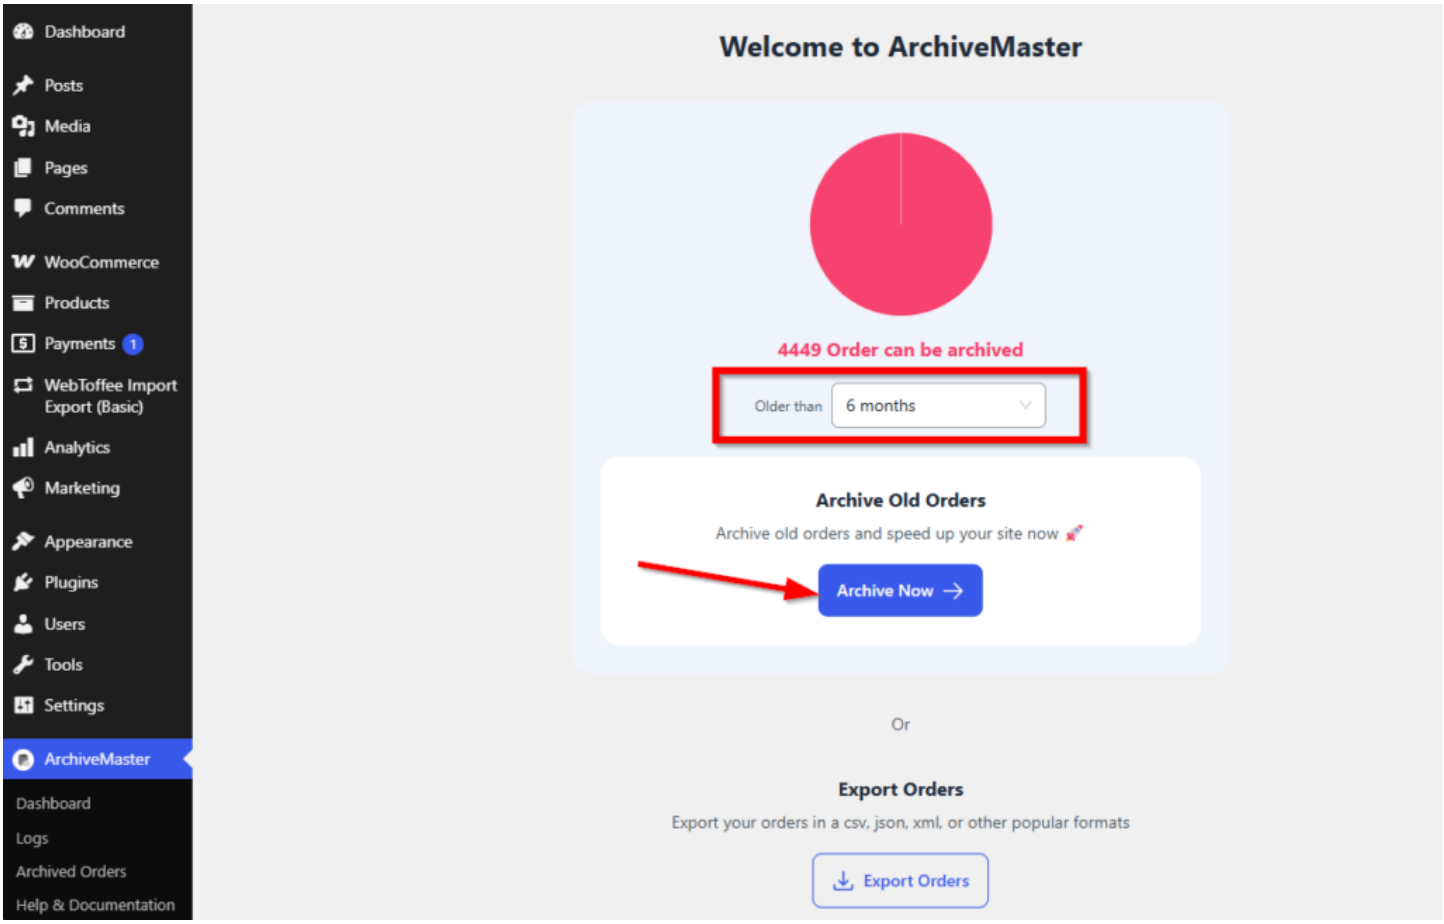


Step 2: Access the ArchiveMaster Interface

After activation, you'll see the ArchiveMaster plugin added to your dashboard menu. Click on it to open the main interface



Within the ArchiveMaster interface, you'll find options to manage your past orders:



- **Archive Orders**: Select this option to archive older orders for better data organization.
- **Export Orders**: Choose this option to export your old orders as a file for external use or backup.
