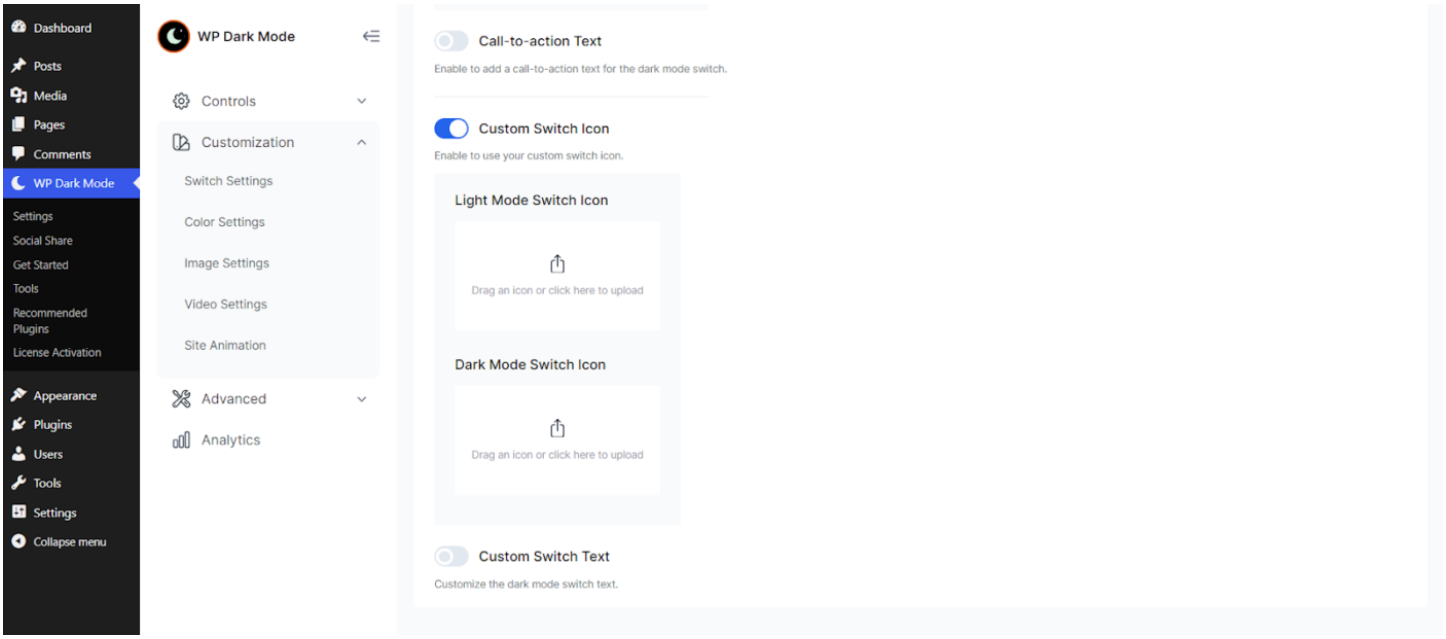
How to Use a Custom Dark Mode Switch

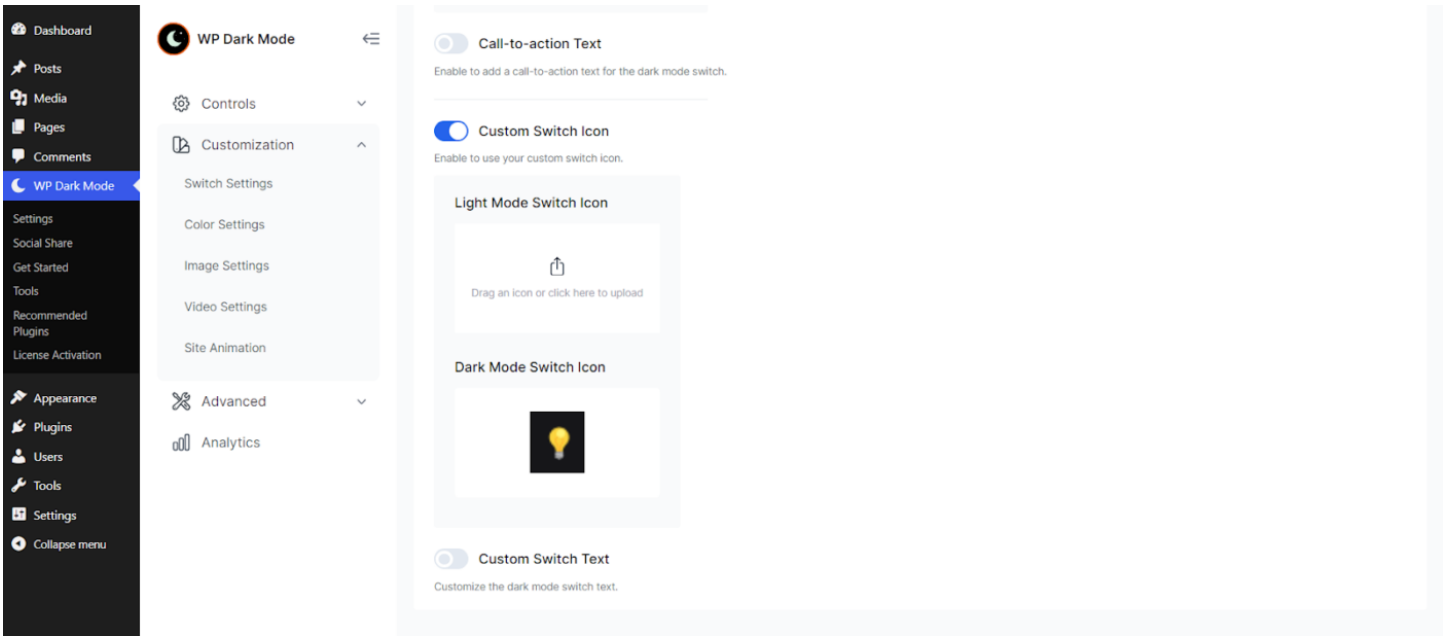
WP Dark Mode · https://wppool.dev/docs/how-to-use-custom-switch-icons-in-dark-mode/

With WP Dark Mode you can use a unique floating switch icon to toggle between light mode and dark mode.

To use this feature, navigate to **WP Dark Mode > Customization > Switch Settings**. Go all the way to the bottom of this page and find the **Custom Switch Icon** section.



Now upload your preferred switch icons for light mode and dark mode. Once you are satisfied with it, click on **Save Changes**.



The new icon will be added to your floating switch.
